

NETWORK IPS

Certificate

Presented this 9th day of December 2010 to

Stonesoft

StoneGate IPS Family

ICSA Labs is pleased to announce that the product family named above attained certification following rigorous and thorough testing in the Network IPS Certification Testing Program.

The products were most recently tested against the requirements in version 1.3 of the Network IPS Enterprise Certification Testing Criteria.

The products remain continuously deployed at ICSA Labs where they are subjected to ongoing testing.

George P. Japak, Managing Director, ICSA Labs

Barring decertification during continued testing, this certificate is valid through March 27, 2011

Certificate number: 100056R00
